

JHUMARI JOB GALOS

09104171409 | iramuhjsolag@gmail.com
Pulo, Cabuyao, Laguna

OBJECTIVES

Recent Information Technology graduate with a strong foundation in software development, quality assurance, database management, and IT hardware troubleshooting. Equipped with practical experience in developing, testing, maintaining, and supporting computer systems and applications. Seeking an opportunity in the IT industry where I can apply my technical skills, problem-solving abilities, adaptability, and willingness to learn while contributing to the growth and success of the organization.

EDUCATION

2022 – 2026 **Central Bicol State University of Agriculture – Sipocot Campus**
Sipocot, Camarines Sur

SKILLS

- **Web Development:** React.js, Node.js, Express.js, JavaScript, PHP
- **Databases:** MongoDB, MySQL
- **Development Tools:** Git, GitHub, GitHub Actions, REST API Development
- **Software Development:** Front-end Development, Back-end Development, Debugging, Testing, Troubleshooting
- **Hardware & IT Support:** PC Assembly & Repair, Network Cabling, Hardware Diagnostics
- **Soft Skills:** Problem-Solving, Team Collaboration, Adaptability, Attention to Detail, Fast Learner

EXPERIENCES & PROJECTS

On-the-Job Training (Software Developer Intern)

- Developed and maintained web application features using the MERN stack (MongoDB, Express.js, React.js, and Node.js).
- Worked on both front-end and back-end development, including APIs, database operations, and user interface functionality.
- Collaborated with the development team to test features, fix bugs, and improve overall application performance and reliability.

Food Mapping and Analytics System (Capstone Project)

- Developed and tested a localized web application using PHP and MySQL.
- Executed manual tests on database schemas and Google Maps API data workflows to ensure accurate spatial data visualization.
- Identified software defects during the development lifecycle and implemented rapid resolutions before deployment.

Web Developer Portfolio — MERN Stack

- Built and deployed a personal portfolio website using React.js, Node.js, Express.js, and MongoDB.
- Developed an admin/backend system for managing portfolio content and projects.
- Deployed the frontend and backend using Vercel and Render, with GitHub for version control and deployment.
